**North-West College to Launch RN Program at West Covina Campus**

*Program Answers Increasing Demand for Well-Trained Nurses in the Health Care Field*

WEST COVINA, Calif.—North-West College (NWC) recently received approval from the Board of Registered Nursing (BRN) to bring its successful Associate of Arts in Nursing (RN) program to its West Covina Campus. Designed for individuals interested in becoming Registered Nurses, the two-year program blends rigorous classroom curriculum with relevant hands-on clinical experience.

“We are thrilled to expand our offerings by adding our sought-after RN program to our West Covina Campus,” NWC President Mitchell Fuerst shared. “To date, this program has yielded an impressive pass rate on the NCLEX-RN exam—which means our graduates are finishing their studies equipped to hit the ground running in the nursing field.”

The Associate of Arts in Nursing program is housed under the College’s Marsha Fuerst School of Nursing, which is committed to remaining on the leading edge of nursing education. Students benefit from committed faculty and a dynamic learning environment—all with the goal of enabling them to succeed in a rapidly evolving health care field.

“On the heels of a pandemic that drove many RNs out of the field, the need for well qualified nurses is greater than ever,” Fuerst explained. “Expanding our RN program is another way North-West College continues to do its part to answer that growing demand. We have no doubt these nurses will go on to make an incredible impact on the lives of the patients and communities they serve.”

**About North-West College**

Founded in 1966, North-West College has been committed to training individuals to enter and advance in the health care field for more than 55 years. A leader in allied health education, the College offers short-term programs at nine campuses throughout Southern California, including West Covina, Pomona Valley, Van Nuys, Glendale, Riverside, Anaheim, Long Beach, San Diego, and Bakersfield. The College’s first seven campuses are institutionally accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC), while the San Diego and Bakersfield campuses hold institutional accreditation from the Accrediting Bureau of Health Education Schools (ABHES). Approved by the Bureau for Private Postsecondary Education (BPPE), North-West College offers a supportive educational environment for those ready to start a health care career. To date, the College has graduated more than 55,000 students—individuals who have gone on to raise the standard of excellence at health care organizations of all types.
